

# Veterans Care Transition Center Initiative

Selfridge ANG Base

October 2015

# A Focus on TBI-injured Veterans

This special population needs comprehensive, integrated care

TBI is the most common neurological condition among Army and Marine Corps veterans who deployed to Iraq or Afghanistan

# Our Solution

## The Veteran Care Transition Center (VCTC)

A full-spectrum community of care setting provides:

- Streamlined identification of resources available
- Residential program with integrated services
- Intensive, specialized care
- Employment, education and job training
- Specialized support for the transition to civilian life

# Michigan – an excellent choice

## Why Michigan ?

- Leading TBI and PTS treatment at Eisenhower Center
- Commitment to veterans - MVAA, VCAT, Camp Liberty, MIOFO

## Why Selfridge ?

- Stock of unused military family housing
- Available common use buildings for program services
- Proximity to TBI, PTS, veterans services
- Support for concept development from MI National Guard leaders

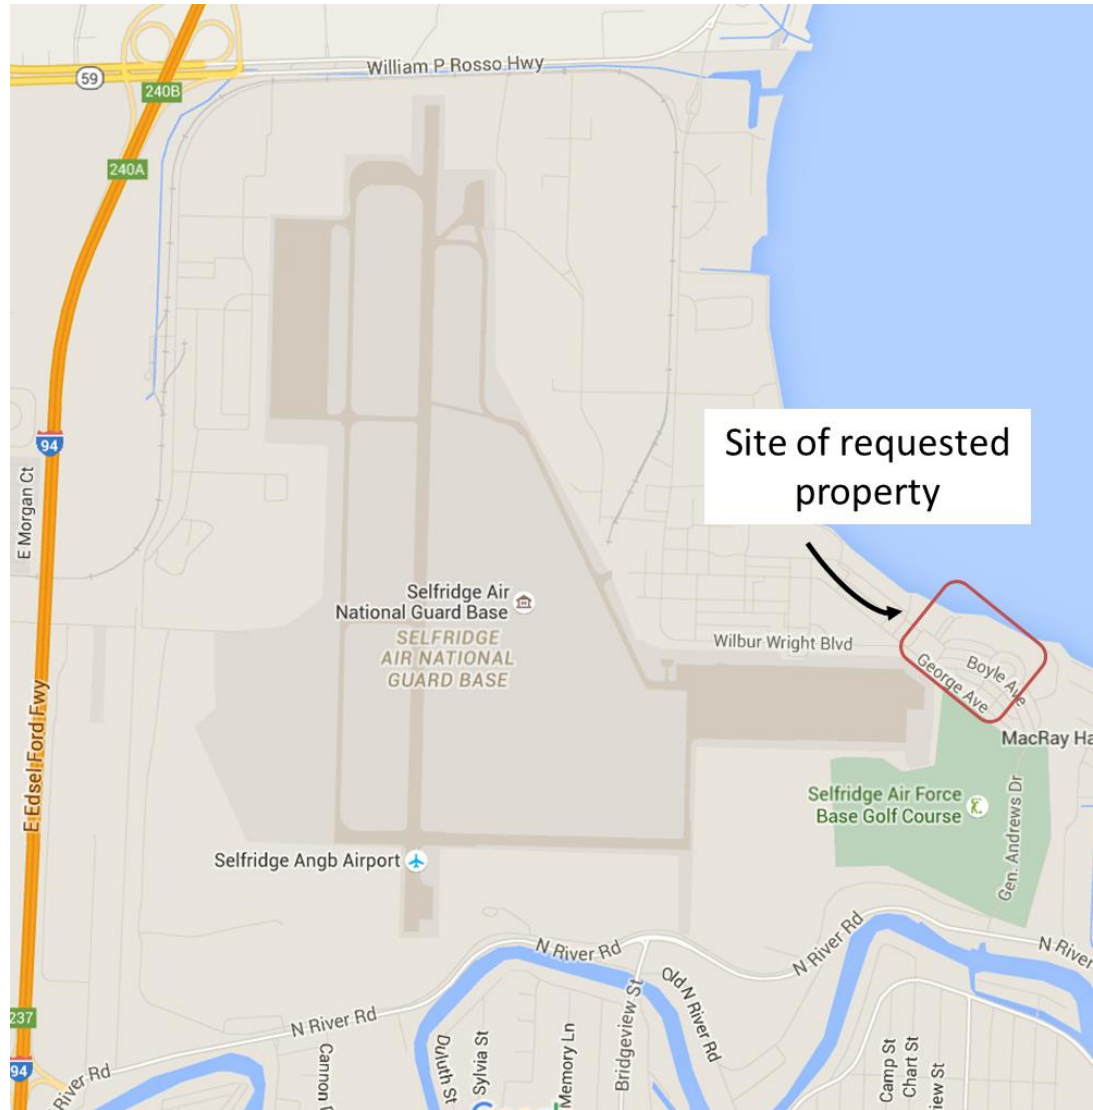

# Powering Economic Development

The Selfridge VCTC will:

- Renovate historically significant military family housing and general purpose buildings at no cost to the government
- Infuse new resources into the community
- Bolster Selfridge's future through a sustainable VCTC funding plan
- Create opportunities for veterans to stay in the area
- Facilitate small business opportunities for both veterans and the community

# Selfridge Air National Guard Base

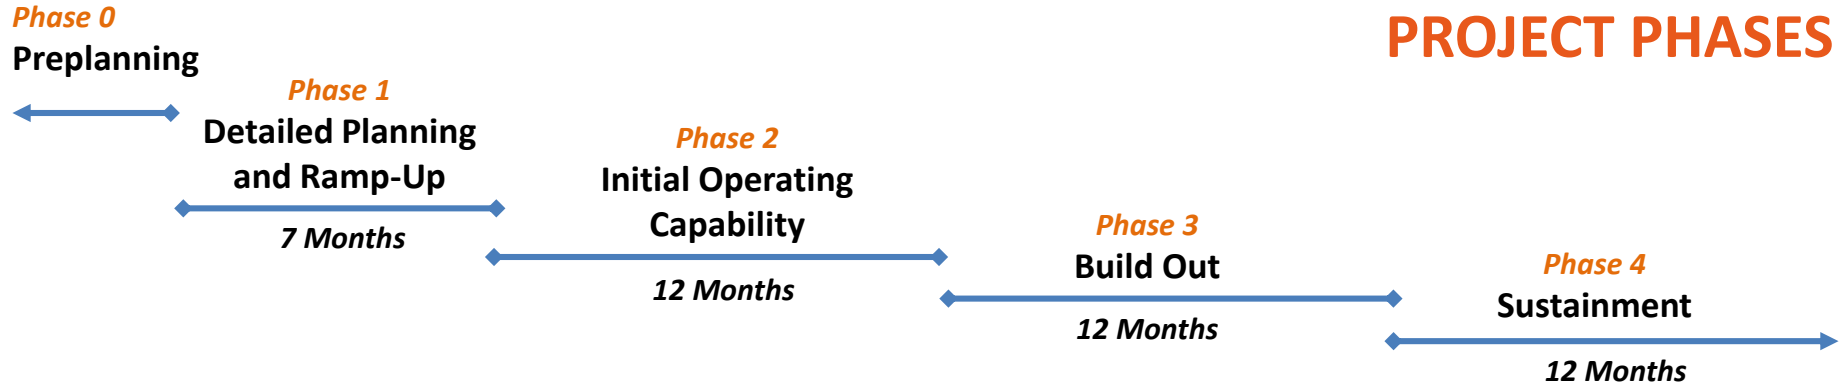

# Requested Property Detail

# The schedule depends on facility access

## COHORT CAPACITY

- Veteran - unmarried
- Veteran - married
- Dependent

The Ambit Foundation provides a single place to find, access, coordinate, and engage all available veteran support programs.

One place to call. One place to visit.

And one place that helps veterans recover from injury,  
reconnect with their families and community,  
and reboot their careers.
